

**Community Caring Award**  
**Webber Consulting, Inc**  
**Mark & Michelle Webber**

The individuals/business chosen to receive the Community Caring Award this year is a long time Canby family, as well as Canby business owners. Their community involvement, leadership, and ongoing support to Canby non-profit groups have become a trademark of their business. They exemplify commitment to our community. They are passionate about enhancing the livability of our community, as well as being innovative, proactive problem solvers. They continually give of their time, are generous with donations to various programs, and have encouraged many area business owners to get involved in our community by becoming Chamber members.

They believe that if Canby needs something, then it is up to the citizens to be a part of the plan. Where most people see a problem, they see an opportunity that presents a challenge. They are thoughtful and compassionate people that know the importance of being involved in the town they live in and conduct business from.

They have helped numerous non-profit organizations by showing them how to create marketing pieces, websites and routinely give advice on how to navigate through technology. They have been instrumental in helping to network and connect “like minded” people in our community who are interested in various community projects

Quality of life is important to them, and they live by example continually giving back to the community they live in. They are caring individuals that donate of their time, money and services without expectation of recognition.

Mark & Michelle Webber of Webber Consulting, Inc., thank you for your outstanding commitment to community involvement and for caring so much about our town, the place we all live, work and play, Canby.
